

The “Muhammet-Balkan” Economic Society was founded in 2009.

Thanks to the unprecedented efforts undertaken by our esteemed President Gurbanguly Berdimuhammedov aimed at the comprehensive development of our country and the endless support provided to Turkmen entrepreneurs.

# 1. Hight quality design & construction:

► Over the past period, more than 17 large socially significant objects have been designed and built:

They are: 4 modern schools, Intercity passenger terminal, residential complexes, railway station and two underground passages (subways), reconstruction parks and etc.

► We also provide contractor services, design works and construction equipment services in the implementation of civil engineering projects.

► Our company aims to become one of the leading construction companies in the Central Asia region.

## 2. Carpet production:

- ▶ We began production of synthetic carpets from 100% polyester in 2017.
- ▶ Our factory equipped with the latest technologies and equipment imported from Turkey and Germany.
- ▶ The daily production capacity of the factory is 5 thousand m<sup>2</sup>.
- ▶ Our high-quality synthetic carpets are widely used in homes, offices, hotels, theaters and other buildings for various purposes.
- ▶ Carpet products are currently exported to the United States and Kazakhstan.
